National Latino registered voter survey, N=1,000, field dates Feb 9 – 14, 2020

About the poll: Univision Noticias partnered with the Latino Community Foundation to conduct a national survey of Latino registered voters, with an oversample of Latinos in Nevada. The poll was implemented from February 9 – 14, 2020 and a total of 1,306 Latino registered voters completed the survey. The national portion (n=1,000) contains a margin of error of +/- 3.1 and the Nevada portion (n=306) contains a margin of error of +/- 5.6. Democratic primary vote choice was asked of 667 respondents nationally and carries a margin of error of +/- 3.8 and in Nevada 210 Democratic voters, +/- 6.7. Surveys were administered in English or Spanish at the discretion of the respondent and included a mix of cell phone, landline telephone and online self-completed interviews. All respondents are confirmed to be registered to vote and that they consider themselves to be Hispanic or Latina/o. Respondents were randomly selected from the voter file and invitations for interviews were done by live caller or email. Invitations were bilingual at point of contact and allowed respondent to complete the interview in their language of choice. The survey was overseen by Dr. Sergio Garcia-Rios, director of polling for Univision, and administered in collaboration by Latino Decisions and North Star Opinion Research.

Results presented in this document reflect the national registered voter sample only (n=1,000)
