## The Economy and Immigration

Let's say one of the candidates had a plan to improve the economy that you supported, and on the immigration issue the candidate said, quote:
[half of sample receives each quote]
-"illegal immigrants are a threat to America who have committed a crime, we can never support amnesty for illegals"
-"America is a nation of immigrants, we need to treat immigrants with respect and dignity and help them assimilate into America instead of attacking them"
end quote.
Would that statement make you more likely to support the candidate, less likely to support the candidate, or would you not care what they said about immigration if you agreed with their plan for the economy?

## Candidate who you agree with on the economy, and makes anti-immigrant statement

- Moreover, the GOP candidates face significant hurdles in favorability/unfavorability;

- The President struggles nationally on support for health reform and trust in him to fix the economy;
- But the Democrats have closed the generic House vote to even, and the public is dissatisfied with the GOP Congress.

- The President enjoys 2-1 margins over his likely opponents among Latino registered voters;
- GOP candidates are neither well-known nor well-liked:
- GOP has significant room to improve Latino outreach;
- Hispanic policy preferences solidly Democratic as well:
- Even on social issues, Latino social conservatism is eroding or altogether missing;
- Immigration sentiments nationally are far more favorable to Latino positions than widely understood:
- But are often drowned out by a passionate minority.
