## Methodology

Latino Decisions interviewed a total of 400 Latino registered voters in each of four states (Arizona, Florida, Nevada, and North Carolina) between September 26-October 13, 2016, on behalf of NALEO Educational Fund. The data are weighted to demographically match the most recent Census estimates for Latino registered voters in each state, and have an overall credibility interval of +/- 4.9 percentage points. Latino registered voters in each state were randomly selected from online panels to be interviewed in English or Spanish, at the respondents' discretion. All respondents confirmed they were Hispanic or Latino and registered to vote in their respective state. The poll was directed by Adrian Pantoja and David Ayón, who can be reached at adrian.pantoja@latinodecisions.com and david.ayon@latinodecisions.com.
