Methodology

Latino Decisions interviewed a total of 250 Latino registered voters between October 16-October 22, 2016, as the sixth wave of an eight-week tracking poll on behalf of NALEO Educational Fund and *Noticias Telemundo*. The tracking poll will subsequently add a fresh cross-section of 250 new interviews each week that are combined with the most recent n=250 from the previous week, as is standard practice in tracking surveys. The data are weighted to match the most recent Census estimates for Latino voters and has an overall credibility interval of +/- 4.4%. Latino registered voters nationwide are randomly selected from online panels to be interviewed in English or Spanish, at the respondents' discretion. Demographic and state distributions are weighted to match the most recent Census estimates for Latino registered voters. The poll was directed by Adrian Pantoja and David Ayón, senior analysts at Latino Decisions.
