Methodology. On behalf of NALEO Educational Fund, Latino Decisions interviewed 505 Latino registered voters nationwide from October 17 – 29, 2018 and carries of margin of error of 4.4%. Each week a fresh sample of 250 registered voters will be added and combined with the previous 250 interviews to create a rolling average of 500 for each week, consistent with most tracking polls methodology. Respondents were randomly selected from Latino Decisions partner web panels and confirmed to be registered to vote. The survey was self-administered and available in English or Spanish at the discretion of the respondent. Data were compared to the best known estimates of the U.S. Census Current Population Survey (CPS) for demographic profile of Latino registered voters and weights were applied to bring the data into direct balance with Census estimates.
