Q34. About a week ago, President Trump launched his official 2020 re-election campaign in Orlando Florida. In his speech he stated: "Imagine if we had a Democrat president and a Democrat congress in 2020. They would strip Americans of their constitutional rights while flooding the country with illegal immigrants. Does this make you..."

Q35. About a week ago, President Trump launched his official 2020 re-election campaign in Orlando Florida. In his speech he stated: "Can you imagine, can you imagine those migrant caravans without having the barriers and walls that we've already put up and that are up. This country would be a mess like you wouldn't believe. So the wall is moving along, it's moving along rapidly. It's beautiful, I changed the design, it's stronger, bigger, better, and cheaper." Does this make you..."

Q36. About a week ago, President Trump launched his official 2020 re-election campaign in Orlando Florida. In his speech he stated: "The unemployment rate is the lowest rate it's been in over 51 years, think of that. And as I said before about African-American, I now say also about Hispanic-American and Asian-American unemployment have reached the lowest rates in the history of our country." Does this make you..."

Q37. For Democrats, prior to the general election in November, there will be a series of state-by-state primary contests to select the nominee to face President Trump. A lot of people skip the primaries and just vote in the November general election. Thinking ahead to the 2020 Presidential primaries and caucuses, what would you say the chances are that you will participate and vote - are you..."

Methodology

On behalf of Univision Communications Inc., Latino Decisions and North Star Opinion collaborated on a national poll of Latino eligible voters. The poll was overseen by Univision polling director Dr. Sergio Garcia-Rios. Overall 410 Latino citizen adults were interviewed across all fifty states from a combination of landline, cell phone, and online completion modes. All voters were randomly selected and given the opportunity to complete the interview in English or Spanish, at their discretion. Randomized stratified quota sampling was employed to ensure the appropriate balance of Latinos across state, gender, age, education, and nativity. Post-stratification weights were applied to bring the sample into alignment with the Census CPS estimates of Latino citizen adults nationwide. Overall 25% of interviews were in Spanish and 83% in English. The final survey contains an overall design error of +/- 4.8%. For registered voters the possible error is +/- 5.4%. The survey was in the field June 28-30, 2019.
