22. Which statement do you agree with most? [ROTATE]

We are all in this together and need to do whatever we can to prevent the spread of coronavirus. Even if it means a few more weeks of staying at home, missing work and/or school – that is a small price to pay in order to save millions of Americans from serious illness or death due to the corona virus.....81

America needs to get back to work now. This has gone on too long, people are losing jobs and the economy is falling apart. It is a sad fact that some people will get sick and die when we all go back to our normal lives, but Americans need to get back to work so that the economy recovers and people keep their jobs 19

23. Which statement do you agree with most? [ROTATE]

There is nothing President Trump can do to prevent or stop an outbreak like the coronavirus from spreading in the United States, he should not be blamed for this crisis..... 31

President Trump ignored the early warning signs of coronavirus, and because of his delays and incomplete response, thousands of Americans are now sick and dying..... 69

Poll details: On behalf of Somos Community Care, Latino Decisions implemented a national survey of Latino adults from April 7-12, 2020. Overall 1,200 Latinos were interviewed for a margin of error of +/- 2.8%. Among these, 837 were registered to vote (+/- 3.4%). The survey was available in English or Spanish, at the discretion of each respondent and 41% completed in Spanish and 59% in English. Respondents were randomly chosen from household lists and screened to people who self-reported they are Hispanic or Latino. Data was collected by a blend of cell phone or landline phone with live caller, and through the Internet for self-administered surveys. Final data were compared to the 2018 Census ACS demographic profile of Latino adults and post-stratification weights were included to balance gender, age, education, and geography so the resulting data matched the national demographic profile of Latino adults.
