Univision News conducted a national survey of Latino registered voters, with an oversample of Latinos in Arizona, Florida, and Texas. The poll was implemented from September 17 – 24, 2020 and a total of 1,962 Latino registered voters completed the survey. The survey contains a margin of error of +/- 2.21. Texas portion (n=401) contains a margin of error of +/- 4.89, Arizona (n=401) 4.89, and Florida (n=500) +/- 4.38. The Latino Texas survey was commissioned through a partnership between Univision News and the Center for Mexican American Studies at the University of Houston.

Additional questions related to the supreme court were added on September 20, 2020. These questions were incorporated with two sample splits and were asked to n=392 (split A), MOE +/- 4.95 and n=432 (split B), MOE +/- 4.71

Surveys were administered in English or Spanish at the discretion of the respondent and included a mix of cell phone, landline telephone and online self-completed interviews. All respondents are confirmed to be registered to vote and that they consider themselves to be Hispanic or Latina/o. Respondents were randomly selected from the voter file and invitations for interviews were done by live caller or email. Invitations were bilingual at point of contact and allowed respondents to complete the interview in their language of choice. The survey was overseen by Dr. Sergio Garcia-Rios, director of polling for Univision, and administered in collaboration by Gary Segura of Latino Decisions and Whit Ayres North Star Opinion Research.
