

Pennsylvania Poll

Q1. Many people are busy and don't get a chance to vote in every election. In many states, early voting and vote-by-mail has already started, while in other states voting only takes place on election day. Thinking ahead to the November 2020 election, what would you say the chances are that you will vote in the election for President, U.S. Congress, and other state offices?

Univision News conducted a national poll and four state-wide polls in Arizona, Florida, Texas, and Pennsylvania. The polls were implemented from October 17 – 25, 2020. In the Latino national poll 2608 Latino registered voters completed the survey and contains a margin of error of +/- 2.21. The state polls contain an unadjusted MOE of 3.64 in PA and AZ, and 3.56 in FL and TX with total completes in TX=758, PA=723, AZ=725, FL=743. The state polls contain Latino oversamples of n = 401 for PA, and TX, and n = 402 for FL and AZ. The MOE for the Latino portion in each state is +/-4.89.

The Latino National survey was commissioned through a partnership between Univision News and UnidosUS/SOMOS. The Arizona survey was commissioned through a partnership between Univision News and the Center for Latina/os and American Politics Research (CLAPR), at Arizona State University. The Texas survey was commissioned through a partnership between Univision News and the Center for Mexican American Studies at the University of Houston.

Surveys were administered in English or Spanish at the discretion of the respondent and included a mix of cell phone, landline telephone, and online self-completed interviews. All respondents are confirmed to be registered to vote and that they consider themselves to be Hispanic or Latina/o. Respondents were randomly selected from the voter file and invitations for interviews were done by live caller or email. Invitations were bilingual at point of contact and allowed respondents to complete the interview in their language of choice. The survey was overseen by Dr. Sergio Garcia-Rios, director of polling for Univision, and administered in collaboration by Latino Decisions and North Star Opinion Research.

Q1. Many people are busy and don't get a chance to vote in every election. In many states, early voting and vote-by-mail has already started, while in other states voting only takes place on election day. Thinking ahead to the November 2020 election, what would you say the chances are that you will vote in the election for President, U.S. Congress, and other state offices?

Univision News conducted a national poll and four state-wide polls in Arizona, Florida, Texas, and Pennsylvania. The polls were implemented from October 17 – 25, 2020. In the Latino national poll 2608 Latino registered voters completed the survey and contains a margin of error of +/- 2.21. The state polls contain an unadjusted MOE of 3.64 in PA and AZ, and 3.56 in FL and TX with total completes in TX=758, PA=723, AZ=725, FL=743. The state polls contain Latino oversamples of n = 401 for PA, and TX, and n = 402 for FL and AZ. The MOE for the Latino portion in each state is +/-4.89.

The Latino National survey was commissioned through a partnership between Univision News and UnidosUS/SOMOS. The Arizona survey was commissioned through a partnership between Univision News and the Center for Latina/os and American Politics Research (CLAPR), at Arizona State University. The Texas survey was commissioned through a partnership between Univision News and the Center for Mexican American Studies at the University of Houston.

Surveys were administered in English or Spanish at the discretion of the respondent and included a mix of cell phone, landline telephone, and online self-completed interviews. All respondents are confirmed to be registered to vote and that they consider themselves to be Hispanic or Latina/o. Respondents were randomly selected from the voter file and invitations for interviews were done by live caller or email. Invitations were bilingual at point of contact and allowed respondents to complete the interview in their language of choice. The survey was overseen by Dr. Sergio Garcia-Rios, director of polling for Univision, and administered in collaboration by Latino Decisions and North Star Opinion Research.
